NHS GREATER GLASGOW AND CLYDE STATEMENT ON CAR PARKING AT RAH

We have put back the introduction of our car park management policy at the RAH to allow for further engagement and discussion with staff and their representatives.

We remain committed managed car parking at the RAH in order to ensure fair access for patients and visitors, particularly for the disabled.

The introduction of car park management at our congested hospital sites in Glasgow has already significantly improved access for patients and visitors and has been welcomed by disabled drivers.
